THETRUSTS GETTING SHAKY

Distillers' Limpas a Rag, and the Bloated Sugar Stock Shows Weakness.

Industrial Shares Still the Feature on New York 'Change-At Indianapolis Buyers Take No More Than Absolutely Required.

STOCKS AND BONDS.

Railroad Issues in Active Demand and Prices Advancing. At New York, yesterday, money on call was easy at 14 @2 per cent., the last loan

Prime mercantile paper, 44 @6 per cent. Sterling exchange was quiet and easier, with actual business in bankers' bills at \$4.85% for sixty days and \$4.87% for de-

being made at 14, closing offered at 2 per

mand. The total sales of stocks were 310,040 shares, including the following: Atchison, 6.100: Burlington, 3,600; Chicago Gas, 10,-000: Consolidated Gas, 4,000; Distilling, 79,-600; Louisville & Nashville, 4,200; Manhattan, 6,700; National Lead, 6,500; New England, 4,600; Reading, 35,600; Richmond Terminal, 3,000; St. Paul, 15,400; Sugar, 45,-100; St. Paul & Omaha, 9,000; Union Pacific,

8,400; Western Union, 4,300. The stock market was comparatively dull yesterday, being still under the restrictive influence both of the great drop in Distillers and the uncertainties concerning the movement of gold. There was, however, a firm temper developed, which lasted throughout the day, resulting in a generally higher level of values, with here and there material improvements. There was a distinctly easier tone to the exchange market, which was attributed to the appearance of bills drawn against stock purchasers, and against bonds which have been placed within the last few days. There was a better supply of commercial bills, also, and the general expectation was roused that no more gold would go out this week. The general railroad list remained very quiet throughout the day. Speculative interest was still monopolized by the two leading industrials, and apparently the inside support was withdrawn from Distillers upon the announcement that the investigation of the trust would be pushed vigorously by the congressional committee. Considerable excitement attended the opening dealings in the stock, and opening prices vary from 41 to 42, but during the forenoon

celerated during the afternoon, and the price dropped to 864, rallying only 4 per cent. for the day. Sugar was strong in the forenoon, but never got more than a small fraction beyond its opening figure, and it weakened perceptibly later in the day, apparently in sympathy with the decline in Distillers. Cordage was the only other industrial showing any weakness. Railroad bonds were again in active demand at improving prices, but no material change was to be noted in the list.

a heavy sagging occurred, which was ac-

Government and State bonds were dull and steady. Closing quotations were: Four per cent. reg. 1134 Louis. & Nash..... 7538 Four per ct. coup. 1134 L. & New Albany. 2434 Pacific 6's of '95...105 Missouri Pacific... 574 Lead Trust..... 4812 Western Union... 9818 Bar Silver - At New York, 83420 per onnee: at London, 38 7/16d.

LOCAL GRAIN AND PRODUCE.

Trade Fair, with Few Fluctuations, and Strong Prices the Leading Feature. Inquiry on the wholesale street develops the fact that business, while up to about the usual January average, is not up to the expectations of the wholesale men. All had looked for a big January business, but the severe weather and unusual quantity of snow interfered more or less with trade the first three weeks of the month, and it is hardly probable that, as a whole, the volume of business in the month closing yesterday was equal to that of January, well supplied is the which draws its supplies from Indianapolis markets with money products which bring money, that with fair weather trade would doubtless be up to expectations. In prices yesterday there were no important fluctustions. Sugars, coffees, provisions, poultry and eggs all are steady and firm at prices on Monday. In the vegetable line there is an easier tone, although no marked break occurred. On account of the advance in tallow and grease the scap manufacturers find grounds to advance scaps 50c to 75c

at that price. Butchers are now getting 84c per pound for tallow. In cereals there is but little activity. Commission men and regular dealers are making purchases only for immediate wants unless some concessions on the prices bid on 'Change are made. Corn is in fair demand, oats rule steady, but wheat is under a cloud, so large is the visible supply. Track bids yesterday ruled as follows: Wheat-No. 2 red, 66 2c; No. 3 red, 62c; No. 4 red, 55c; rejected, 50c; wagon wheat,

per box. Retail grocers now pay 5c a bar

for the soap which they have been selling

Corn-No. 1 white, 41c; No. 2 white, 41c; white mixed, 40c; No. 3 white, 41c for one or two color; No. 4 white, 38c; No. 2 yellow, 40c; No. 3 yellow, 394c; No. 4 yellow, 384c; No. 2 mixed, 3940; No. 3 mixed, 39c; ear, Oats-No. 2 white, 36c; No. 3, 854c; No.

ANTI-OPTIONS - BILL SCARE

All Sorts of Rumors Flying and Wheat Fluctuated with Every Breeze.

At the Close the Leading Cereal Showed a Loss of 12c for the Day, with Corn and Oats Both Slightly Off in Sympathy.

TRADING AT CAICAGO.

Hog Receipts Light but Market Heavy and Pork Products Declined.

CHICAGO, Jan. 31 .- The pending vote in the Senate on the anti-options bill made trade very dull to-day and the expectation that it would pass made the market weak for all speculative articles. The most con flicting rumors were in circulation and wheat ran up and down as might the mercury in a thermometer if plunged alternately in boiling water and a freezing mixture. At the close wheat stood at only be decline below its value at the corresponding tims of the previous day. Corn was %c and cats so lower. The declines in provisions amounted in pork and ribs to 30c and in lard to 15c.

About the only encouragement bulls had to start with was the reported drop of 64,-000 bushels in the amount of wheat and flour on ocean passage. Iterior crop advices were somewhat conflicting; a good many letters from Indiana and southern Illinois reported much of the wheat covered with a crust of ice and damage feared, but other advices seemed to show that such conditions were confined to small areas. When the market was the duliest and weakest somebody started a rumor that the anti-options bill had just been defeated by five votes. The crowd did not stop to reflect that the Senate had not yet convened and everybody made a rush to buy and the price was advanced %c in less than five minutes. The opening was the same as yesterday's closing to 4c lower; then, after some slight fluctuations, advanced %c, became weak and declined about %@1c, ruled steadier and the closing was about the same as yesterday. In corn operations were confined princi-

pally to local room and professional traders. and fluctuations were within 4@ sc May was the only feature in the oats market that received attention. It sold within 4c range and closed at a net decline

The provision market opened easier and lower than at the close of the previous session. Pork opened at a decline of 124c; lard was 740 lower and ribs 5c lower. After further declines of 50 m pork, 50 in lard and 71/2c in ribs, there was a temporary rally, which raised May pork from \$19.871/2 to \$20, after which the general tendency was downward. There were only 19,000 hogs reported at the yards, but the market there was said to be rather heavy. The market acted as if some heavy holders were seeking opportunities to unload. It weakened rapidly toward the end of the session. Estimated receipts for to-morrow are: Wheat, 235 cars; corn, 235 cars; oats, 125

Bran for Bone in Pigs. Correspondence Germantown Telegraph. Last spring I purchased two March pigs, both of one litter. Cheshire breed, five weeks old. I commenced feeding milk mostly, giving a little whole corn soon after, about one ear to two twice a day, and sweet milk with a little waste from the table. After a few weeks I began to feed meal and sour milk. They grew finely. the barrow gaining a little the fastest, but not much. Some time in August I noticed that the male pig began to act a little restless when feeding, as though his legs pained him. He would keep stepping from one to the other, more particularly with his hind

Transfers, 18; consideration \$25,100.00

legs and feet. This state of things kept increasing on him until he could hardly get out of his bed and over a six-inch board without a painful effort. I began to fear that I should have to kill him. I had seen very fat hogs similarly handled that were fed almost exclusively on corn. His limbs were very small compared to the sow.

Hints from periodicals on feeding bran to strengthen the bones in animals popped into my head, so I resolved to experiment, I immediately commenced feeding nothing but wheat bran and sour milk. In less than a weak the crippled pig got lively and active. I began soon after to add meal to the pottage, and the pig got entirely well. I then fell back to the clear meal and milk, when, a few days after, the same disability came on again. I repeated the wheat-bran ration with the previous re-

sult-a perfect cure. I had enother experience that nearly cost me both of the pigs after they became hogs, which may prevent others from more serious disaster. I caught a young cat catching chickens, and shooting it near the pen, threw it to the pigs. They ate the cat, fur and all, when both sickened very seriously, necessitating active treatment to get rid of it. One of them lay two days in a high fever, proceded by a severe chill, which reminded me of an old-fashioned fever-and-ague chill I once had.

Work to Do.

For students and young farmers there is a field in which much good may be done and some money made. It is to graft and bud fruit trees for those too busy or lacking the knowledge. Active young men could get several weeks' work each spring and ber a man who did this work about my old home, who had much more than he could do. He was paid by the grafts he made grow, and, being an expert, he made them all grow, and seenred large wages. At present, in whole counties, a skilled person cannot be found for this work. To grafting and budding might be added the elements of landscape gardening-the selecting and planting of trees and shrubbery and general improvement of the exterior of rural places.

THE

INDIANAPOLIS **JOURNAL**

DAILY.

stantly increasing.

SUNDAY AND

WEEKLY

Since the Journal reduced in price from 25 to 15 cents a week, it has greatly extended its circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate the result which was to be expected, namely, that what was first regarded as a luxury has become a necessity, and that the new readers not only remain, but their list is con-

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in transportation.

The Journal is the paper for Indianians and particularly for Indiana Republicans. Although the campaign is ended, the coming session of Congress and subsequent change of administration involve political problems and proceedings likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the 1,550.00 | Journal's Washington correspondent being instructed to give especial attention to averything having a possible bearing

on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constant endeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful

supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the w in condensed shape and a varie f miscellany. nold literature agricultural and h that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements of-

fered to agents. Circulars sent on appli-Send for sample copies of Daily, Sunday and Weekly issues.
